UFORCE 1000 XL

UFORCE 1000 XL

As the name suggests, the strength of UFORCE 1000 XL is not only more excellent in towing/carrying capacity, but also provides an excellent heavyweight product for UTV users with exceptional operation performance, comfortable driving experience, and convenience in life.

Based on flagship UTV product UFORCE 1000, CFMOTO upgraded the excellent engineering innovation with user needs and launched the ultimate 6-seater side-by-side UFORCE 1000 XL.

The exterior design of UFORCE 1000 XL ensures the load and ride space with a tough and square shape.

The body size reaches 3770mm×1615mm×1850mm, and the wheelbase reaches the industry's top level of 2850mm. The van-style cabin provides a comfortable space for 6 adults through the double-row 3+3 seat layout. The 4.25-inch adjust-

able driver's seat and the up-down adjustable steering wheel provide the driver with a more autonomous and comfortable space.

In terms of safety, the design of UFORCE 1000 XL is very detailed, equipped with seat belts for each passenger, and the body structure has been strengthened in multiple

points, and high-quality materials are used to ensure toughness and durability.

UFORCE 10000 XL

UFORCE 1000 XL

The UFORCE 1000 XL is based on the outstanding performance of UFORCE 1000.

Adjusted by engineers, its powerful and reliable 963cc V-Twin engine, excellent traction and carrying capacity, greater available horsepower across the powerband, and smooth driving operation based on ride-by-wire throttle have been further improved. Thanks to the precise control of the Bosch EFI system, the engine can provide stable power output throughout the entire speed range.

The power steering system (EPS) driven by a brushless motor provides light handling and precise steering prevents the direction vibration caused by sudden bumps and makes the driving experience more relaxed and comfortable.

Powerful Engine

Excellent In Towing

It is worth mentioning that the body of the UFORCE 1000 XL is big, but its towing capacity is not affected.

Thanks to the powerful engine and excellent engineering design, the towing weight can reach an excellent level of 1,133KG* (2,500lbs) and has a horsepower output exceeding 10 horsepower of similar products.

Carrying Capacity

*Traction on private roads: 2500lbs. Traction on public roads: 800KG / 1763lbs.

UFORCE 1000 XL provides switchable 2WD/4WD drive mode and 4WD drive lock function and is equipped with a CV-Tech transmission system.

Users can drive through rugged terrain with stable traction, or use a two-wheel drive to cope with open fields.

The standard 14-inch all-aluminum alloy wheels and 27-inch tires combined with a minimum ground clearance of 310mm ensure that the passability is fully guaranteed, and there is enough space to deal with muddy roads. Users and friends can enjoy the satisfaction and fun of leisure off-road driving together.

**Off-road
Versatility**

In addition, UFORCE 1000 XL provides a 40-liter large fuel tank, a full LED lighting system, 5-inch TFT high-definition instrument display, wireless remote control 4,500-pound front

winch, gas-assisted carbo box, and a wealth of standard accessories.

Loads Of Features & Original Accessories

The whole body length bash plate, protection bumpers, plastic roof, CF-Connect quick assembly system, and other configurations, make it more practical.

With the enrichment of CFMOTO original accessories, the performance of UFORCE 1000 XL will continue to improve, making it an ideal choice for users to face various tasks.
